

### A. On Farm Testing

Sl. No.	Title of OFT	Area ha./No	Farmers number
1	Assessment on management of uzifly in silkworm rearing	1000 (DFL's)	5
2	Assessment of Suitable Paddy Variety for Zone-7	2	5
3	Assessment of Bengal gram varieties against wilt	1.8	3
4	Assessment of apical rooted potato saplings performance in Hassan district	1	5

### B. Front Line Demonstration

Sl. No.	Title of FLD	Area ha./No	Farmers number
1	Demonstration of Niger Variety KBN-1 for higher productivity	4	10
2	Demonstration of Castor Hybrid ICH-66 for yield maximization	2	10
3	Demonstration of Redgram Variety BRG-4	2	10
4	Demonstration of New Ragi Variety KMR-630	4	10
5	Introduction of Cowpea in Paddy fallows as crop rotation	2	5
6	Introduction of improved Cardamom variety Njallani green gold for higher yield	0.5	5
7	Introduction of Dragon fruit Cultivation for higher income	0.3	3
8	Mechanization in potato cultivation	2	5
9	Integrated Crop Management in drumstick-PKM -1	0.5	5
10	Integrated Thrips Management in Mulberry	4	10
11	Demonstration of nutri-farms for year round nutrition security among farm families	10	10
12	Eco friendly Management of Kitchen Waste and Home Gardening	4	4
13	Demonstration of Composite Fish Culture	2	5
14	Integrated Pest Management of Fall army worm in Maize	4	10

15	Intervention of Scientific approach in Bee keeping <i>Apis cerana indica</i>	0.4	5
16	Management of Rugose Spiralling White flies on coconut	10	25
17	Management of South American leaf miner ( <i>Tuta absoluta</i> ) in Tomato	400 vines	5
18	Integrated crop Management in Pepper	2	10
19	Demonstration of cereal fodder and legume as a intercropping system	1	5
20	Demonstration on Duckery for additional income	5	5
21	Demonstration of Seri farm residue with waste decomposer microbial consortia for quality compost production	25	5
22	Management of dairy cows during the transitional phase through feed supplementation to maximize fertility and conception rate	40 cows	2
23	Integrated health management in Sheep and Goat	30 sheeps/Goat	5
